Writing Equations for Proportional Relationships: Tables Writing Equations for Proportional Relationships: Tables Students learn how to identify the constant of proportionality for proportional relationships given in a table in this seventh- and eighth-grade math worksheet. Write Equations in Slope-Intercept Form: Tables Write Equations in Slope-Intercept Form: Tables Use this eighth-grade algebra worksheet to help students learn how to write an equation in slope-intercept form to represent the values in a table! Linear Function Word Problems Linear Function Word Problems Practice solving linear function word problems with this two-page algebra worksheet for eighth graders! Slope-Intercept Form: Writing Equations Slope-Intercept Form: Writing Equations Teach students how to write an equation in slope-intercept form given the graph of a line with this eighth-grade algebra worksheet! Write a Linear Equation From Two Points Write a Linear Equation From Two Points Students will find the slope and y-intercept of the line that passes through given points and write an equation in slope-intercept form in this eighth-grade algebra worksheet! Write a Linear Equation From the Slope and a Point Write a Linear Equation From the Slope and a Point Students write an equation in slope-intercept form that has the given slope and passes through the given point in this eighth-grade algebra worksheet. Rate of Change: Tables Rate of Change: Tables In this eighth-grade algebra worksheet. Rate of Change: Tables, students gain practice finding the rate of change in tables of linear functions! Rate of Change: Graphs Rate of Change: Graphs In Rate of Change: Graphs, eighth-grade learners will learn how to read graphs of linear functions to find the rate of change. Write a Linear Equation From the y-Intercept and a Point Write a Linear Equation From the y-Intercept and a Point In this eighth-grade algebra worksheet, students are given the y-intercept and a point from a linear function and asked to write an equation in slope-intercept form. Writing Equations in Slope-Intercept Form: Review Writing Equations in Slope-Intercept Form: Review Students review how to write equations in slope-intercept form from graphs and tables in this eighth-grade algebra worksheet! Feline Delights: Scatter Plots Performance Task Feline Delights: Scatter Plots Performance Task Sorting Representations of Linear Functions Sorting Representations of Linear Functions Students make connections between different representations of functions with this hands-on card sorting activity! Match the Graphs to the Linear Equations Match the Graphs to the Linear Equations Use this hands-on card matching activity to help students practice matching graphs to their corresponding linear equations! Match the Tables to the Linear Equations Match the Tables to the Linear Equations Use this hands-on card matching activity to help students practice matching tables of values to their corresponding linear equations. Write Equations in Slope-Intercept Form From Tables Write Equations in Slope-Intercept Form From Tables Help students review how to write equations in slope-intercept form from tables with this eighth-grade practice worksheet! Write Equations in Slope-Intercept Form From Graphs Write Equations in Slope-Intercept Form From Graphs Students gain practice writing equations in slope-intercept form from graphs in this eighth-grade algebra worksheet! Dash for Dogs: Functions Performance Task Dash for Dogs: Functions Performance Task Students demonstrate their understanding of functions to complete this race-themed performance task! The slope (or gradient) of a line is a number that denotes the 'steepness' of the line, also commonly called 'rise over run'. Knowledge of relevant formulae is a must for students of grade 6 through high school to solve some of these pdf worksheets. This page consists of printable exercises like introduction to slopes such as identifying the type and counting the rise and run; finding the slope using ratio method, slope-intercept formula and two-point formula; drawing lines through coordinates and much more! Employ our free worksheets to sample our work. Answer keys are included. Printing Help - Please do not print slope worksheets directly from the browser. Kindly download them and print. Identify the Types of Slopes Introduction to slopes: Based on the position of the line on the graph, identify the type of slope - positive, negative, zero or undefined. This exercise is recommended for 6th grade and 7th grade children. Draw Lines on a Graph: Types of Slopes The first part of worksheets require students to plot the points on the graph, draw the line and identify the type of slope. In the next section, draw a line through the single-point plotted on the graph to represent the type of slope mentioned. Graph the Line Draw a line through a point plotted on the graph based on the slope provided in this set of pdf worksheets which is suitable for 9th grade children. Fun Activity: Slope of the Roof This set of fun activity worksheets contains houses with roofs of various sizes. Find the slope of the roof of each house. Answers must be in the form of positive slopes. Find the Slope: Ratio Method Use the x- and y- coordinates provided to find the slope (rise and run) of a line using the ratio method. A worked out example along with the formula is displayed at the top of each worksheet for easy reference. Find the Slope: Line segments in a Triangle Triangles are represented on each graph in this assembly of printable 8th grade worksheets. Learners will need to identify the rise and run for each of the three line segments that are joined to form a triangle. Two-Point Formula Employ the two-point formula that is featured atop every worksheet along with a worked out example. Substitute each pair of x- and y- coordinates in the given formula to find the slope of a line. Plot the Points and Find the Slope Plot the points on the graph based on the x- and y-coordinates provided. Then, find the slope of each line, so derived. Some problems contain x- and y-intercepts as well. Find the Missing Coordinates In this series of high school pdf worksheets, the slope and the co-ordinates are provided. Use the slope formula to find the missing coordinate. Slope-Intercept Form This set of printable worksheets features linear equations. Students are required to find the slopes by writing linear equations in slope-intercept form. Here is a graphic preview for all of the Linear Functions Worksheets. You can select different variables to customize these Linear Functions Worksheets for your needs. The Linear Functions Worksheets are randomly created and will never repeat so you have an endless supply of quality Linear Functions Worksheets to use in the classroom or at home. Our Linear Functions Worksheets are free to download, easy to use, and very flexible. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Click here for a Detailed Description of all the Linear Functions Worksheets. Click the image to be taken to that Linear Functions Worksheets. Finding Slope from a Graphed Line Worksheets These Linear Functions Worksheets will produce problems for practicing finding the slope from a graphed line. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Finding Slope from a Pair of Points Worksheets These Linear Functions Worksheets will produce problems for practicing finding the slope from a pair of points. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Finding Slope and the Y-intercept from a Linear Equation Worksheets These Linear Functions Worksheets will produce problems for practicing finding the slope and Y-intercept from an equation. You may select the type of problems to produce and the solutions that the students must perform. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Graphing Lines in Slope-Intercept Form Worksheets These Linear Functions Worksheets will produce problems for practicing graphing lines in slope-intercept form. You may select the type of solutions that the students must perform. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Graphing Lines Given Y-intercept and a Ordered Pair Worksheets These Linear Equations Worksheets will produce problems for practicing graphing lines given the Y-intercept and a ordered pair. You may select the type of solutions that the students must perform. These Linear Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Graphing Lines Given Two Ordered Pairs Worksheets These Linear Equations Worksheets will produce problems for practicing graphing lines given two ordered pairs. You may select the type of solutions that the students must perform. These Linear Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Working with Linear Equations Worksheets These Linear Functions Worksheets will produce problems for practicing solving the equation of a linear equation. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Writing Linear Equations Worksheets These Linear Functions Worksheets will produce problems for practicing writing linear equations from graphed lines. These Linear Functions Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Graphing Linear Inequalities Worksheets These Inequality Worksheets will produce problems for practicing graphing linear inequalities. These Inequality Worksheets are a good resource for students in the 5th Grade through the 8th Grade.
